

FARM MANAGEMENT DEPOSIT ACCOUNT APPLICATION FORM

Heritage recommends you obtain advice from your accountant or financial adviser regarding Farm Management Deposits (FMD)

Statements

1 Authorised deposit-taking institution

The FMD provider issuing this application form is an authorised deposit-taking institution for the purposes of the Banking Act 1959.

Required statements

1 Purpose of farm management deposits scheme

The farm management deposits scheme is designed to allow individuals carrying on a primary production business in Australia, with taxable non-primary production income, to shift before-tax income from years when they need it least to years when it is most needed. The scheme helps those individuals to manage their exposure to adverse economic events and seasonal fluctuations.

Eligibility criteria apply to individuals carrying on a primary production business in Australia under the scheme.

Note Primary production business and carrying on a primary production business are explained in subsection 995-1 (1) of the 1997 Act.

2 Tax consequences of farm management deposits

The scheme allows individuals carrying on a primary production business in Australia to deduct the amount of any farm management deposit they own from their assessable income for the income year in which the deposit is made. However, the amount of the deductions cannot exceed the owner's taxable primary production income for the income year.

Under the Pay As You Go system, owners may reduce their instalment income for an instalment period by the amount of farm management deposits made during that period. The reduction is limited to the amount that the owners can reasonably expect to deduct for the deposit for the income year in which the deposit is made. However, the instalment income for the period cannot be reduced below nil.

When a farm management deposit is repaid to an owner in an instalment period, the instalment income of the period will include the amount of the repayment. But the owner's instalment income will only include so much of the repayment as will be included in the owner's assessable income for the income year in which the repayment is made.

If neither the owner's tax file number nor Australian Business Number has been quoted to the FMD provider that holds the deposit, the amount repaid will also be subject to withholding tax at a rate equal to the sum of the top marginal tax rate and the Medicare levy.

3 Important requirements for farm management deposits

Some of the requirements for farm management deposits are summarised below. There are also other requirements set out in the 1997 Act. A breach of some of the requirements

will result in the deposit not being treated as a farm management deposit, and the tax benefits will be lost.

- The owner must be an individual who is carrying on a primary production business in Australia when the deposit is made.
- The deposit must be made by only one individual and on behalf of only one individual.
- Rights of the depositor are not, and must not be, transferable to another entity.
- The deposit must not be used as security for any amount owed to the FMD provider or any other entity by the depositor or any other entity.
- The deposit must not be used, as a mortgage offset account or otherwise, to reduce the depositor's liability to pay interest on other debts to the FMD provider.
- Interest or other earnings on the deposit must not be invested as a farm management deposit with the FMD provider without having first been paid to the depositor.
- If the depositor requests in writing, the FMD provider must electronically transfer the deposit, or part of the deposit, to another FMD provider that agrees to accept it as a farm management deposit.
- The FMD provider must not deduct any fees from the principal of a farm management deposit. However, it may charge fees on the deposit.

4 Repayment of farm management deposits

The tax benefits are not retained for deposit amounts repaid within the first 12 months after the deposit was made, unless the repayment is made:

- (a) because the owner:
- (i) dies; or
 - (ii) becomes bankrupt; or
 - (iii) ceases to carry on a primary production business in Australia and does not start carrying on such a business again within 120 days; or
 - (iv) has requested the deposit, or part of the deposit, to be transferred to another FMD provider; or
- (b) because the circumstances specified in regulation 7 of the Income Tax (Farm Management Deposits) Regulations 1998, relating to repayment in the event of a natural disaster, exist.

Additional information

Minimum deposit threshold: \$1,000 or more.

Multiple deposits: An individual can own more than one farm management deposit, and can own farm management deposits with different FMD providers, but the sum of the balances of all of the farm management deposits of an owner must not be more than the maximum deposit limit.

Minimum repayment amount: The amount of any repayment of a farm management deposit must be at least \$1,000, except where the entire amount of the deposit is repaid.

Non-primary production income: The taxable non-primary production income for the year of income must not exceed \$100,000.

Tax File Number / Australian Business Number: Any withdrawal made where the depositor has not provided their TFN nor ABN will be subject to the withholding tax rate, which is the sum of the top marginal tax rate for the income year in the year of the deposit and the Medicare levy (47% as at 1 July 2020).
